

A LIFETIME OF CARE, CLOSE TO HOME: MAIN LINE HEALTH DOWNTOWNTOWN

Dedication and Gift Naming Opportunities

The tradition of generous philanthropic support from individuals, families and charitable organizations to Main Line Health goes back nearly two centuries, with the founding of each of our hospitals advanced by thoughtful, forward-looking leaders and philanthropists who recognized the need for high-quality healthcare in their communities. That same charitable spirit has been instrumental to Main Line Health's growth and ability to meet the healthcare needs of our region.

As this community grows, so does our commitment to you: to make high-quality care easier to access, closer to home and designed around real lives.

Main Line Health Downtown will bring together a comprehensive range of outpatient services designed to improve access, convenience and continuity of care for patients and families. The facility's three levels will house advanced diagnostic, treatment, specialty care, rehabilitation and surgical services and consultations, creating numerous opportunities for donors of \$10,000 or more to support and name spaces that reflect their philanthropic interests and values.

The designated spaces listed at right may be named for the donor or for an individual whom the donor wishes to honor.

Center of Excellence for Comprehensive Care (comprising all internal treatment spaces)	\$1,500,000
